**Prior Member of the "American Association of Professional Psychics"**

With over 39 years experience and as a previous certified psychic with the "American Association of Professional Psychics", she does her readings spiritually. Psychometry is reading the metaphysical vibrations that are emanated from the body or voice. Any inanimate object can be used such as a piece of your own jewelry that has been worn only by you, or to read another person not present, she would use something that belongs or belonged to them. Tarot is read with the same technique. She also has had many years experience with "Dream Interpretation". It is with gifted insight that she is able to counsel and advise. Her following includes over 20,000 recorded readings both nationwide and international.

She also offers "Over-The-Phone" readings and "EMAIL" readings via email with the convenience of Pay Pal, check or money order. "I carry no guarantee as I feel life has no guarantee, but that we should want to live it to the fullest by getting on the right path. I do this psychically with gentle guidance and direction".

The "Psychic Times" is among several projects in progress.

# Psychic Times

In circulation for over five years now, Donna Jackson and the Psychic Times staff are proud to announce that they are now an international newsletter. Offered in a PDF format, one can go to [www.voicesfrombeyond7.com/PsychicTimesWelcome.html](http://www.voicesfrombeyond7.com/PsychicTimesWelcome.html) and download our newsletter for a print out if they like.

The Psychic Times is a metaphysical, paranormal and eclectic newsletter. They started out when Donna Psychic Counselor was looking for a way to advertise her business and help others advertise their businesses. With four pages (two sheets of interesting topics stapled together) the Psychic Times was born.

With topics on customs, religion, metaphysics, paranormal, teen advice on general interests, crafts, recipes, poetry, numerology, astrology and much more we are thrilled to announce that those in the UK as well as our new readers in Romania are also enjoying our newsletter.

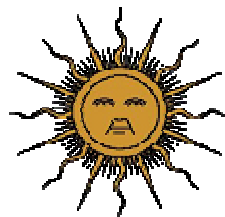

Our twenty-five to thirty-five page newsletter offers a diverse flavor in the submissions sent in from people from all over the world, from well known and accomplished authors to those wonderful folks that just love to write and have a flair for it. Here they can share their thoughts and knowledge and creativity with everyone on a quarterly basis. As a result we are able to produce this amazing collection and deliver it to you.

As a division of our web site "voicesfrombeyond7.com", (The Metaphysical Center), we have noticed our daily visitors to our site increase. We are currently at the top of Yahoo search engine when the input is "Voices From Beyond".

Currently we are offering our newsletter free to the public and as we continue to pay for costs through our advertising.

**Advertising is extremely reasonable and affordable for the extent of exposure we are creating! Our rates are available in PDF on site at:**

# **G.H.O.S.T.**

## **\*Our Mission Statement\***

We, Ghost Hunters Offering Supernatural Tactics (G.H.O.S.T.), are a group of people from all walks of life who, in one way or another have an interest in paranormal activity and possess varying skills including technical, psychic and skeptical analysis. We are dedicated to finding answers to questions yet unanswered, about life after death, the presence of ghosts and other non-human manifestations and spiritual activity outside our physical realm.

We do this by researching the historical background of an area and by using current technology available to us (including EVP recordings, photographic and video evidence, electromagnetic field readings and temperature fluctuations), to collect and interpret our findings.

Because we believe that spiritual activity elicits a psychic response, we use psychically sensitive people as a means to help us target our investigations.

We have the support and understanding within the group to carry out intense investigations with the understanding that we all work in unity and feed on the input of our members with the highest respect.

We offer (free) investigations, interpretations and when desired, house cleansings or other methods of infusing an environment with positive energy and a sense of well-being in an effort to bring peace to all inhabitants of an area, both living and dead.

This offer is extended to all peoples no matter their race, creed, color, financial status or religious beliefs, to allow them an understanding and a means of coping with the paranormal activity they experience.

Donna Psychic Counselor leads her group of paranormal investigators in a quest for understanding, knowledge and compassion as well as to help others overcome their fear and or worry. Having over 30 investigations under her, she has helped those in distress to a place of peace and comfort through educating them as she and her group help to bring closure to those souls still so restless.

**\*\*\*We are also currently seeking sponsors for additional equipment and a brick and mortar facility.\*\*\***

## **Voices From Beyond**

Voices From Beyond is a branch off of "G.H.O.S.T." that contacts loved ones in the next realm records their voice via digital recorders and computer software. They are then recorded on a CD for a client.

Donna Psychic Counselor with her partner, Revan, have contacted thousands of those who have passed and communicate with them on a regular basis. Among those infamous contacted is Sara Winchester of the Winchester Rifle industry. When Donna asks the spirits to come forward and speak, 95% of the time, that specific person comes forward in audio and/or digital photographs.
